时间	发布部门	主要政策	政策内容
2023年	国家能源局	《关于加快推进能源数字化智能化发展的若干意见》	以数字化智能化电网支撑新型电力系统建设。推动实体电网数字呈现、仿真和决策，探索人工智能及数字孪生在**电网智能辅助决策和调控**方面的应用，提升电力系统多能互补联合调度智能化水平，推进基于数据驱动的**电网暂态稳定智能评估与预警**，提高电网仿真分析能力，支撑电网安全稳定运行
2022年	国家能源局	《关于促进新时代新能源高质量发展的实施方案》	加快构建适应新能源占比逐渐提高的新型电力系统，全面**提升电力系统调节能力和灵活性**，着力提高配电网接纳分布式新能源的能力，稳妥推进新能源参与电力市场交易，完善可再生能源电力消纳责任权重制度

□□□□□□□□□

对比维度	智能电表	普通电表
通信能力	具备（双向通信） ・上行：自动将用电数据远程传输给电网公司。 ・下行：可接收电网指令（如远程通断电、费率切换）。	不具备 数据仅本地显示，无法与外部通信。
数据详情	详细 - 记录分时电量（峰、平、谷）。 - 记录用电习惯（日/月曲线）。 - 双向计量（支持光伏发电用户将多余电量上网）。	单一 - 仅显示累计总用电量。
故障与安全	主动 - 可自动监测异常用电（如开盖、失压、失流），并主动报警。	被动 - 故障不易被发现，通常依赖用户报修 现。
与用户交互	丰富 - 用户可通过手机APP、网上国网/南网等平台实时查询每日用电详情和电费余额。	极少 - 用户只能看到电表上的"总数字"， 节。

APPENDIX 1

Summary

Initial Coverage on Wasion Holdings (3393.HK): Dual-Driven by Distribution Network Investment and AI Computing Power, the Energy Metering Leader Sets Sail Again

Wasion Holdings: Expert in Energy Metering and Energy Efficiency Management. As China's leading provider of overall solutions for energy metering and smart power distribution and utilization, the company has built a matrix of three major businesses: Smart Grid Solutions, Smart Energy Efficiency Management Solutions, and Digital Energy Service Provider. By covering the entire product chain of "metering - communication - power distribution and utilization," the company has formed a deep client moat in fields such as power, water, gas, and large-scale public buildings.

Power Grid Investment in the "15th Five-Year Plan" Enters the 4-Trillion Era; Smart Distribution Networks Usher in a Cycle of Rising Volume and Prices. With the large-scale grid connection of new energy under the "Dual Carbon" strategy, the intelligent transformation of the distribution network has become a rigid demand. The State Grid's fixed asset investment during the "15th Five-Year Plan" is expected to reach 4 trillion yuan, an increase of 40% compared to the "14th Five-Year Plan," with the investment focus clearly shifting towards the distribution network side. Starting from 2026, the new standard electricity meters will enter a major year of comprehensive supplementary bidding, and the price limits are generally over 20% higher than the previous average winning bid prices. As a top-tier enterprise in the industry, the company is expected to deeply benefit from the new cycle of "rising volume and prices".

AIDC Computing Power Explosion Drives Power Distribution Architecture Innovation; Digital Energy Business Opens a New Growth Pole. The exponential growth of AI computing power has driven the rack density of data centers (AIDC) to jump from 4-6kW to 20-40kW and above, forcing the power supply architecture to evolve towards 800V high-voltage direct current (HVDC). The company has deep technical reserves on the low and medium voltage power distribution side, and its digital energy business is accelerating its penetration into high-value scenarios such as data centers and energy storage. In 2025, the company's AI-related revenue grew by nearly 90% year-on-year, which has become one of the strongest drivers for its performance growth.

Deepening Global Layout; "Capacity Going Global" Enters the Fast Lane of Value Release. The company has established six major production and R&D bases globally, including in Mexico, Brazil, and Hungary, achieving a strategic upgrade from "products going global" to "localized operations". Benefiting from overseas power grid upgrades and AIDC demand, new overseas orders are expected to grow by 54% to 2 billion RMB in 2026. The continuous increase in the proportion of overseas business will further optimize the company's gross profit structure.

Valuation and Recommendations

We expect the company's revenue to reach 12.341 billion / 14.707 billion / 17.228 billion RMB during the period from 2026 to 2028, with net profits of 1.873 billion / 2.227 billion / 2.622 billion RMB, respectively. Based on the Discounted Cash Flow (DCF) valuation model, we initiate coverage with an "Outperform" rating and a target price of 40.94 RMB.

Risk Warnings

Centralized procurement bidding volume and prices of the State Grid and China Southern Power Grid failing to meet expectations; slower-than-expected business growth in overseas markets; rising overseas production costs.

Ratings Definitions (from 1 Jul 2020):

HuaFu International uses a relative rating system using Outperform, Neutral, or Underperform for recommending the stocks we cover to investors. Investors should carefully read the definitions of all ratings used in HuaFu International Research. In addition, since HuaFu International Research contains more complete information concerning the analyst's views, investors should carefully read HuaFu International Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Analyst Stock Ratings

Outperform: The stock's total return over the next 12-18 months is expected to exceed the return of its relevant broad market benchmark by over 10%, as indicated below.

Neutral: The stock's total return over the next 12-18 months is expected to be in line with the return of its relevant broad market benchmark, as indicated below.

Underperform: The stock's total return over the next 12-18 months is expected to be below the return of its relevant broad market benchmark by over 10%, as indicated below.

Benchmarks for each stock's listed region are as follows: Japan – TOPIX, Korea – KOSPI, Taiwan – TAIEX, India – Nifty100, US – SP500; for all other China-concept stocks – MSCI China.

[illegible]

HuaFu International Non-Rated Research: HuaFu International publishes quantitative, screening or short reports which may rank stocks according to valuation and other metrics or may suggest prices based on possible valuation multiples. Such rankings or suggested prices do not purport to be stock ratings or target prices or fundamental values and are for information only.

[illegible] A [illegible] A [illegible] A [illegible] A [illegible]

HuaFu International Coverage of A-Shares: HuaFu International may cover and rate A-Shares . HuaFu Securities, the ultimate parent company of HuaFu International based in FuZhou, covers and publishes research on these same A-Shares for distribution in mainland China. However, the rating system employed by HuaFu International differs from that used by HuaFu Securites and even the teams covering the same A-share stocks might be totally independently different, as a result there may be a difference in their coverage ratings, target prices and

research logics for the same A-share stocks.

IMPORTANT DISCLAIMER

The research report is issued by HuaFu International, a licensed corporation to carry on Type 4 regulated activity (advising on securities) for the purpose of the Securities and Futures Ordinance (Cap. 571) of Hong Kong.

The information and opinions contained in this research report have been compiled or arrived at from sources believed to be reliable and in good faith but no representation or warranty, express or implied, is made by HuaFu International or any other related members from which this research report may be received, as to their accuracy, completeness or correctness. All opinions expressed herein are as of the date of this research report and are subject to change without notice. This research report is for information purpose only. Descriptions of any companies or their securities mentioned herein are not intended to be complete and this research report is not, and should not be construed expressly or impliedly as, an offer to buy or sell securities. The securities referred to in this research report may not be eligible for purchase or sale in some jurisdictions. If an investment product is denominated in a currency other than an investor's home currency, a change in exchange rates may adversely affect the investment. Past performance is not necessarily indicative of future results. Certain transactions, including those involving derivatives, give rise to substantial risk and are not suitable for all investors. You should also bear in mind that recommendations in this research report are not tailor-made for you. The analyst has not taken into account your unique financial circumstances, such as your financial situation and risk appetite. You must, therefore, analyze and should, where applicable, consult your own legal, tax, accounting, financial and other professional advisers to evaluate whether the recommendations suits you before investment. Neither HuaFu International nor any of its directors, employees or agents accepts any liability whatsoever for any direct or consequential loss arising from any use of the materials contained in this research report.

HuaFu International and its affiliates, officers, directors, and employees, excluding the analysts responsible for the content of this document, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research report. Sales, traders, and other professionals of HuaFu International may provide oral or written market commentary or trading strategies to the relevant clients and the companies within HuaFu International that reflect opinions that are contrary to the opinions expressed in this research report. HuaFu Internatioal may make investment decisions that are inconsistent with the recommendations or views expressed in this research report. HuaFu International is under no obligation to ensure that such other trading decisions, ideas or recommendations are brought to the attention of any recipient of this research report.

Please refer to XXX's website www.hfisec.com.hk for further information on HuaFu International's organizational and administrative arrangements set up for the prevention and avoidance of conflicts of interest with respect to Research.
